Club weekly hiking affected
area & observing wildlife

There is much wild life along
the Latina Canyon Rd. This

54-1

development as planned will
destroy their natural habitat.
Additionally the noise &
pollution created during the
years of construction will
drive out wildlife from the
adjoining areas:

54-2

The people/voters of Tujunga
should have voted before on
land use & zoning plans. Thus
Harper

54-2

Development violates virtually every agreement we have with ~~our~~ politicians, from grading ordinances to the environment.
