Hi Luci,

You stated that the reconfiguration of 8118 was based on safety concerns. Please provide accident data for this intersection supporting the need to eliminate the turn lane. Thank you in advance.

Laura

Hi Laura,

Per DOT, the average accident rate is over 10 accidents per year at that intersection. Sunset Boulevard has been identified as part of the High Injury Network under the City's Vision Zero Program, which identifies the streets in Los Angeles with the highest injury rates.

Thank you,
Luci
