

## SWPAO - Water Deliveries

---

The State Water Project uses the "Notice to State Water Project Contractors" as a format to provide key information regarding SWP water allocations, water supply programs, billing information, and other administrative issues. The list below contains notices starting with the January 10, 1996 notice and ending with the most recent notice to date.

Since DWR receives frequent information requests regarding the yearly allocation and water supply programs, the Notices concerning these topics are highlighted as follows in the list below:

- Notices concerning annual SWP water allocations are designated with an "A" in the column preceding the "Number of Notice to Contractors" column.
- Notices concerning information on annual SWP water supply programs, primarily the Turn-Back Water Pool Program and the Article 21 Program, are designated with a "P" in the column preceding the "Number of Notice to Contractors" column.

To view the Notice and table you wish to see, click on the number of the Notice; click the "Back" button of your browser to return here. You'll need Adobe Acrobat Reader to view the Notices. Click on "[Adobe Acrobat Reader](#)" if you need to download a copy; then click the "Back" button of your browser to return here.

Please contact [Tasmin Eusuff](#) of the Water Delivery Analysis and Documentation Branch if you have questions or need further information.

### Notices to State Water Project Contractors

A/P	Number of Notice to Contractors	Date of Notification	Type of Delivery Or Allocations
A	<a href="#">14-08</a>	May 30, 2014	2014 State Water Project Allocation Scheduling Revision
A	<a href="#">14-07</a>	April 18, 2014	2014 State Water Project Allocation Increase back to 5%
