Canyon Hills Project- DEIR Comments

Dear Ms. Zaitzevsky:

As a resident of Tujunga, CA., by way of this letter, I am voicing my complaint and opinion regarding the Canyon Hills Project.

37-1

There are many objections to this project, most notably the affect on the equestrian community and resident hikers who will lose their rights to have this availability..

As our community stands currently, we do not have adequate police response/protection now, what would happen with the enormity of this project.

37-2

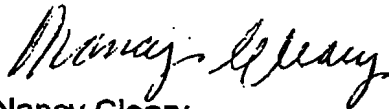

The obvious impact on traffic, parking etc. will greatly affect our environment.

37-3

We do not need our mountains torn away or diminished. I greatly urge the City to vote against this project.

37-4

Sincerely Signed – a Concerned Resident,

Nancy Cleary
