

**VIII. EFFECTS NOT FOUND TO BE SIGNIFICANT**

Per CEQA Section 15128, “An EIR shall contain a statement briefly indicating the reasons that various possible significant effects of a project were determined not to be significant and were therefore not discussed in detail in the EIR.”

The proposed Project did not address in detail potential impacts to areas such as agricultural resources, cultural resources, and mineral resources. Potential impacts to the three identified environmental issues were determined to be less than significant based on the lack of identification of a substantial concentration of these resources in the General Plan Framework EIR, the developed nature of the Project Site and Add Area, and the considerable length of time that the Project Site and Add Area have been developed.
