

**DRAFT MASTER  
ENVIRONMENTAL IMPACT REPORT**

**CORBIN AND NORDHOFF  
ENV 2002-1230-EIR  
SCH # 2002051125**

**LEAD AGENCY:  
LOS ANGELES DEPARTMENT OF CITY PLANNING  
200 NORTH SPRING STREET, ROOM 763  
LOS ANGELES CA 90012**

**APPLICANT:  
THE KRAUSZ COMPANIES  
44 MONTGOMERY STREET, SUITE 3300  
SAN FRANCISCO CA 94104**

**EIR CONSULTANTS:  
PLANNING ASSOCIATES, INC  
4040 VINELAND AVENUE, SUITE 108  
STUDIO CITY CA 91604**

**SEPTEMBER 2003**

## TABLE OF CONTENTS

<b>I.</b>	<b>Summary</b> .....	1
A.	Project Location .....	1
B.	Project Description .....	1
C.	Summary of Impacts and Mitigation Measures .....	6
D.	Project Alternatives .....	64
<b>II</b>	<b>Project Description</b> .....	69
<b>III</b>	<b>Environmental Setting</b> .....	81
A.	Environmental Setting .....	81
B.	Related Projects .....	85
<b>IV</b>	<b>Environmental Impact Analysis</b>	
A.	Aesthetics .....	90
B.	Air .....	110
C.	Biological Resources .....	149
D.	Geologic Hazards .....	156
E.	Hazardous Materials and Waste .....	177
F.	Hydrology .....	198
G.	Land Use .....	212
H.	Noise .....	237
I.	Population and Housing .....	253
J.	Employment .....	261
K.	Public Services .....	265
	Fire .....	265
	Police .....	272
	Libraries .....	277
	Schools .....	280
L.	Parks and Recreation .....	286
M.	Traffic .....	295
N.	Utilities .....	430
	Electricity .....	430
	Natural Gas .....	438
	Water .....	444
	Sewers .....	454
	Solid Waste .....	462
<b>V.</b>	<b>Significant and Long Term Environmental Effects</b> .....	476
<b>VI.</b>	<b>Growth-Inducing Impacts</b> .....	478

<b>VII. Alternatives</b> .....	482
A. No Project Alternative .....	484
B. All Residential Alternative .....	494
C. Reduced Project Alternative .....	506
D. Alternative Project Site Alternative .....	515
E. Environmentally Superior Alternative .....	527
<b>VIII. Effects Not Found to be Significant</b> .....	528
<b>IX. Initial Study</b> .....	529
<b>X. Agencies Consulted</b> .....	557
<b>XI. References</b> .....	560

**Appendices (Under Separate Cover)**

- A.** Comment Letters (Attached to Draft MEIR)
- B.** Air Quality and Noise Technical Report (Volume I)
- C.** Report of Geotechnical Evaluation (Volume II)
- D.** Phase I Environmental Assessments (Volume II)
- E.** Drainage Study (Volume II)
- F.** Traffic Impact Study (Volume III)

## LIST OF TABLES

TABLE NUMBER	PAGE NUMBER
1.	Traffic Mitigation Requirements ..... 51
2.	Trip Equivalency ..... 78
3.	State and National Ambient Air Quality Standards ..... 114
4.	1999-2001 Criteria Pollutant Violations ..... 115
5.	SCAQMD Daily Emissions Thresholds ..... 117
6.	Existing Carbon Monoxide Concentrations ..... 120
7.	Estimated Daily Construction Emissions Before Mitigation, Project Site Only ..... 123
8.	Estimated Daily Construction Emissions After Mitigation, Project Site Only ..... 126
9.	Daily Operational Emissions, Project Site Only ..... 128
10.	2005 Carbon Monoxide Concentrations, Project Site Only ..... 129
11.	Daily Operational Emissions with Mitigation, Project Site Only ..... 131
12.	Cumulative Project Operational Impact Analysis, Project Site Only ..... 134
13.	Estimated Daily Construction Emissions Before Mitigation, Full Build Out ..... 136
14.	Estimated Daily Construction Emissions After Mitigation, Full Build Out ..... 139
15.	Daily Operational Emissions, Full Build Out ..... 141
16.	2005 Carbon Monoxide Concentrations, Full Build Out ..... 142
17.	Daily Operational Emissions with Mitigation, Full Build Out ..... 145
18.	Cumulative Project Operational Analysis, Full Build Out ..... 147
19.	Active Faults in Southern California ..... 162
20.	Historic Earthquakes ..... 166
21.	LUST Sites ..... 183
22.	Current Add Area Occupants and Uses ..... 186
23.	Summary of Hazardous Materials Inventory ..... 188
24.	Citywide Elements ..... 213
25.	Citywide Land Use ..... 214
26.	SCAG Policies ..... 228
27.	Existing Noise Levels ..... 238
28.	Existing Community Noise Equivalent Level ..... 240
29.	Land Use Compatibility for Community Noise Environment ..... 241
30.	Maximum Noise Levels of Common Construction Equipment ..... 242
31.	Outdoor Construction Noise Levels ..... 243
32.	Construction Noise Impact, Project Site Only ..... 244
33.	2005 Estimated Community Noise Equivalent Level, Project Site Only ..... 245
34.	Construction Noise Impact, Full Build Out ..... 248
35.	2005 Estimated Community Noise Equivalent Level, Full Build Out ..... 249
36.	Existing Housing and Population ..... 253
37.	Proposed Project Site Population ..... 257
38.	Proposed Add Area Population ..... 258
39.	Existing Add Area Employees ..... 261
40.	Proposed Project Site Employees ..... 262
41.	Proposed Add Area Employees ..... 263

42.	Related Project Employees .....	264
43.	Fire Stations .....	265
44.	Libraries .....	277
45.	Schools .....	280
46.	Projected Project Site Student Generation .....	282
47.	Projected Project Site School Enrollment .....	282
48.	Projected Add Area Student Generation .....	283
49.	Projected Add Area Student Enrollment .....	284
50.	Parkland .....	287
51.	Existing Recreational Facilities .....	289
52.	Existing Trip Generation .....	300
53.	Existing Intersection Conditions .....	301
54.	Existing Traffic Volumes .....	305
55.	Significant Intersection Impact Thresholds .....	310
56.	Scenario 1: Retail Trip Generation, Project Site Only .....	312
57.	Scenario 2: Office Trip Generation, Project Site Only .....	313
58.	Scenario 3: Retail/Residential Trip Generation, Project Site Only .....	314
59.	Scenario 4: Office/Residential Trip Generation, Project Site Only .....	315
60.	Related Project Trip Generation .....	326
61.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours Scenario 1: Retail, Project Site Only .....	330
62.	Intersections with Significant Traffic Impacts Before Mitigation Scenario 1: Retail, Project Site Only .....	332
63.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours Scenario 2: Office, Project Site Only .....	335
64.	Intersections with Significant Traffic Impacts Before Mitigation Scenario 2: Office, Project Site Only .....	337
65.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours Scenario 3: Retail/Residential, Project Site Only .....	341
66.	Intersections with Significant Traffic Impacts Before Mitigation Scenario 3: Retail/Residential, Project Site Only .....	343
67.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours Scenario 4: Office/Residential, Project Site Only .....	346
68.	Intersections with Significant Traffic Impacts Before Mitigation Scenario 4: Office/Residential, Project Site Only .....	348
69.	Scenario 1: Retail Trip Generation, Full Build Out .....	352
70.	Scenario 2: Office Trip Generation, Full Build Out .....	353
71.	Scenario 3: Retail/Residential Trip Generation, Full Build Out .....	354
72.	Scenario 4: Office/Residential Trip Generation, Full Build Out .....	355
73.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours Scenario 1: Retail, Full Build Out .....	365
74.	Intersections with Significant Traffic Impacts Before Mitigation Scenario 1: Retail, Full Build Out .....	367
75.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours Scenario 2: Office, Full Build Out .....	371

76.	Intersections with Significant Traffic Impacts Before Mitigation Scenario 2: Office, Full Build Out .....	373
77.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours Scenario 3 Retail/Residential, Full Build Out .....	376
78.	Intersections with Significant Traffic Impacts Before Mitigation Scenario 3: Retail/Residential, Full Build Out .....	378
79.	Summary of Volume to Capacity Ratios and Level of Service AM and PM Peak Hours Scenario 4: Office/Residential, Full Build Out .....	382
80.	Intersections with Significant Traffic Impacts Before Mitigation Scenario 4: Office/Residential, Full Build Out .....	384
81.	Trip Equivalency .....	387
82.	Congestion Management Plan Traffic Impact Analysis .....	389
83.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours at Mason Avenue Intersections Scenario 1 Retail, Project Site Only .....	394
84.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours at Mason Avenue Intersections Scenario 2 Office, Project Site Only .....	395
85.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours at Mason Avenue Intersections Scenario 3 Retail/Residential, Project Site Only .....	396
86.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours at Mason Avenue Intersections Scenario 4 Office/Residential, Project Site Only .....	397
87.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours at Mason Avenue Intersections Scenario 1 Retail, Full Build Out .....	398
88.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours at Mason Avenue Intersections Scenario 2 Office, Full Build Out .....	399
89.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours at Mason Avenue Intersections Scenario 3 Retail/Residential Full Build Out .....	400
90.	Summary of Volume to Capacity Ratios and Levels of Service AM and PM Peak Hours at Mason Avenue Intersections Scenario 4 Office/Residential Full Build Out .....	401
91.	Traffic Mitigation Requirements .....	403
92.	Level of Service Summary After Mitigation Scenario 1 Retail, Project Site Only .....	406
93.	Level of Service Summary After Mitigation Scenario 2 Office, Project Site Only .....	409
94.	Level of Service Summary After Mitigation Scenario 3 Retail/Residential, Project Site Only .....	412
95.	Level of Service Summary After Mitigation Scenario 4 Office/Residential, Project Site Only .....	415
96.	Level of Service Summary After Mitigation Scenario 1 Retail, Full Build Out .....	417
97.	Level of Service Summary After Mitigation Scenario 2 Office, Full Build Out .....	421
98.	Level of Service Summary After Mitigation Scenario 3 Retail/Residential, Full Build Out .....	424
99.	Level of Service Summary After Mitigation Scenario 4 Office/Residential, Full Build Out .....	427
100.	Existing Project Site Electricity Demand .....	430
101.	Existing Add Area Electricity Demand .....	431
102.	Proposed Project Site Electricity Demand .....	432
103.	Proposed Add Area Electricity Demand .....	433

104.	Proposed Related Project Electricity Demand .....	437
105.	Existing Project Site Natural Gas Demand .....	438
106.	Existing Add Area Natural Gas Demand .....	439
107.	Proposed Project Site Natural Gas Demand .....	440
108.	Proposed Add Area Natural Gas Demand .....	441
109.	Related Project Natural Gas Demand .....	443
110.	Existing Water Distribution Mains .....	445
111.	Existing Project Site Water Demand .....	446
112.	Existing Add Area Water Demand .....	447
113.	Proposed Project Site Water Demand .....	448
114.	Proposed Add Area Water Demand .....	450
115.	Related Project Water Demand .....	453
116.	Existing Daily Project Site Sewage Generation .....	455
117.	Existing Daily Add Area Sewage Generation .....	455
118.	Proposed Daily Project Site Sewage Generation .....	457
119.	Proposed Daily Add Area Sewage Generation .....	458
120.	Daily Related Project Sewage Generation .....	461
121.	Existing Waste Disposal Sites .....	463
122.	Existing Daily Project Site Solid Waste Generation .....	463
123.	Existing Daily Add Area Solid Waste Generation .....	464
124.	Project Site Demolition Phase Waste Generation .....	465
125.	Project Site Construction Phase Waste Generation .....	466
126.	Proposed Daily Project Site Solid Waste Generation .....	467
127.	Add Area Demolition Phase Waste Generation .....	469
128.	Add Area Construction Phase Waste Generation .....	470
129.	Proposed Daily Add Area Solid Waste Generation .....	471
130.	Related Project Daily Solid Waste Generation .....	473
131.	Impact Comparison .....	485
132.	All Residential Alternative Schools .....	501
133.	Alternatives Land Use Summary .....	526

## LIST OF FIGURES

FIGURE NUMBER	PAGE NUMBER
1. Regional Map	70
2. Vicinity Map	71
3. Radius Map	72
4. Aerial Photograph	73
5. Related Projects	86
6. Views from Shirley Avenue	93
7. Views from Nordhoff Street	94
8. Views from Prairie Street	95
9. Views from Corbin Avenue	97
10. Views of Add Area I	100
11. Views of Add Area II	102
12. SCAB Location and Boundaries	112
13. Air Monitoring Areas	116
14. Sensitive Receptor Locations	122
15. Geologic Map	157
