PROJECT DESCRIPTION

The Project retains and rehabilitates Crossroads of the World, the former Hollywood Reporter Building and the Bullinger Building and removes all other existing improvements on the Project Site to construct a mixed-use development on a 8.34-acre site in the Hollywood Community Plan Area. The Project (including existing uses to be retained within the Crossroads of the World complex and the uses to be included in the former Hollywood Reporter Building and the Bullinger Building) includes approximately 1,381,000 square feet of floor area, consisting of 950 residential units, 308 hotel rooms, and approximately 190,000 square feet of commercial/retail uses and a new above-ground parking structure on the eastern side of the Project Site. Included among the residential units are 105 dwelling units for Very Low Income Households, to replace the existing 82 residential units covered by the City's Rent Stabilization Ordinance. The proposed floor area ratio (FAR) is approximately 3.81:1 averaged across the Project Site. The Project results in a net increase of approximately 1,208,427 square feet of floor area on site.
