To: alejandro.huerta@lacity.org

I oppose this project because there is already a parking shortage and too much traffic in the area.

I am a volunteer at the non-profit American Cinematheque and when I come to give my time it costs me \$15-20 to park.

I oppose the demolition of nine historic structures that tell the important story of early Hollywood history.

The traffic situation is already unbearable, hotel entrances on Selma will make it impossible to get to businesses I patronize on Hollywood Blvd.

This development is not beneficial to Hollywood. It destroys the fabric of the neighborhood by putting an emphasis on the hotel while displacing small businesses currently leasing space in the historic buildings that are slated for demolition.

Hollywood a history is what makes it so special and a tourists destination. How are you destroy its past, the easier it is for people to choose to visit somewhere else.
