EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc. (EDR). The report meets the government record search requirements of ASTM Standard Practice for Environmental Site Assessments, E 1527-00. Search distances are per ASTM standard or custom distances requested by the user.

TARGET PROPERTY INFORMATION

ADDRESS

2065 AVENUE OF THE STARS
LOS ANGELES, CA 90067

COORDINATES

Latitude (North): 34.057500 - 34° 3' 27.0"
Longitude (West): 118.415900 - 118° 24' 56.9"
Universal Transverse Mercator: Zone 11
UTM X (Meters): 369334.2
UTM Y (Meters): 3769241.0
Elevation: 299 ft. above sea level

USGS TOPOGRAPHIC MAP ASSOCIATED WITH TARGET PROPERTY

Target Property: 2434118-A4 BEVERLY HILLS, CA
Source: USGS 7.5 min quad index

TARGET PROPERTY SEARCH RESULTS

The target property was identified in the following government records. For more information on this property see page 9 of the attached EDR Radius Map report.

Site	Database(s)	EPA ID
CENTURY PLAZA HOTEL 2065 AVENUE OF THE STARS LOS ANGELES, CA 90067	HAZNET	N/A
CENTURY PLAZA HOTEL 2065 AVENUE OF THE STARS LOS ANGELES, CA 90067	HAZNET	N/A

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable") government records either on the target property or within the ASTM E 1527-00 search radius around the target property for the following databases:

FEDERAL ASTM STANDARD

NPL..... National Priority List

EXECUTIVE SUMMARY

Proposed NPL..... Proposed National Priority List Sites
CERCLUR..... Comprehensive Environmental Response, Compensation, and Liability Information System
CERCLA No Further Remedial Action Planned
CONTRACTS..... Corrective Action Report

SURROUNDING SITES: SEARCH RESULTS
 Surrounding sites were identified.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. EDR's definition of a site with an elevation equal to the target property includes tolerances of +/- 10 feet. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property (by more than 10 feet). Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.
 Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL ASTM STANDARD
 RCRRS: The Resource Conservation and Recovery Act database includes selected information on sites that generate, store, treat, or dispose of hazardous waste as defined by the Act. The source of this database is the U.S. EPA.

A review of the RCRRS-LOG list, as provided by EDR, and dated 09/09/2002 has revealed that there is 1 RCRRS-LOG site within approximately 0.375 miles of the target property.

CORTESE: This database identifies public drinking water wells with detectable levels of contamination, hazardous substance sites selected for remedial action, sites with known toxic material identified through the abandoned site assessment program, sites with USTs having a reportable release and all solid waste disposal facilities from which there is known migration. The source is the California Environmental Protection Agency/Office of Emergency Information.

A review of the Cortese list, as provided by EDR, has revealed that there are 11 Cortese sites within approximately 1.125 miles of the target property.

FEDERAL ASTM SUPPLEMENTAL

The Toxic Substances Control Act identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site. The United States Environmental Protection Agency has no current plan to update and/or re-issue the database.

A review of the TSCA list, as provided by EDR, and dated 12/31/1998 has revealed that there is 1 TSCA

STATE OR LOCAL ASTM SUPPLEMENTAL

DRYCLEANERS-A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rug, carpet and upholstery cleaning; industrial laundries; laundry and garment services.

A review of the CLEANERS list, as provided by EDR, and dated 03/18/2002 has revealed that there are 3 CLEANERS sites within approximately 0.375 miles of the target property.

CA SLIC: SLIC Region comes from the California Regional Water Quality Control Board.

A review of the CA SLIC list, as provided by EDR, has revealed that there is 1 CA SLIC site within approximately 0.625 miles of the target property.

Lower Elevation	Address	Dist / Dir	Map ID	Page
BEVERLY CREST CLEANERS	16391 SANTA MONICA BLVD	1/4 - 1/2 WNW	Q109	82

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency

A review of the HAZNET list, as provided by EDR, has revealed that there are 83 HAZNET sites within approximately 0.375 miles of the target property.

because of their high concentrations (E.G., BOD, Hardness, TSS, Chloride), Manageable hazardous wastes (E.G., Inorganic salts and heavy metals) are included in this category. Minor Threat to Water Quality: A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not all metals without a TTHQ will be considered a minor threat to water quality unless coded at a higher level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as daily waste ponds.

Reclamation: No reclamation requirements associated with this facility.

POTW: The facility is not a POTW.

NPDES Number: CAG980001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board

CENTURY PARK PLAZA (Continued) 1600422883

WDS:
 Facility ID: Los Angeles River 186000514
 Facility Contact: Margo Gierloff
 SIC Code: 8012
 Agency Name: DOUGLAS EMMETT & COMPANY
 Agency Address: Not reported
 Agency Contact: Not reported
 Design Flow: 0 Million Gallons Per Day
 Facility Type: Other (Class I, II, or III)
 Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.
 Agency Type: Private
 Waste Type: Miscellaneous (includes wastes from dewatering, recreational lake overflow, swimming pool wastes, water rids wastewater, ground water seepage and other wastes of this type) - Designated/Inland or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride), Unmanageable hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category.
 Threat to Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not all runs without a TTWO will be considered a minor threat to water quality unless coded at a higher level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as daily waste ponds.
 Reclamation: No reclamation requirements associated with this facility.
 POTW: The facility is not a POTW.
 NPDES Number: CAG994001 The 1612 characters designate the state. The remaining 7 are assigned by the Regional Board
 Subregion: 4
